Program Director - Leonard Leach - lleach@pyninc.org

01 Skills Building + Academic Support

Build the skills you need to succeed in healthcare and beyond. Strengthen your communication, problem-solving, and academic skill set.

02 Job Shadowing + Field Trips

Go beyond the classroom and step into real healthcare settings. Visit hospitals and workplaces, meet professionals, and see what different roles look like up close.

03 Connection to Internships

Get priority access to a paid summer internship where you can gain hands-on experience, build your resume, and start developing real skills in a professional healthcare environment.

04 Industry Recognized Certifications

Prepare for a Certified Medical Administrative Assistant (CMAA) credential—an industry-recognized certification that can open doors to entry-level roles and future career opportunities.
